SUMMARY

I am a front-end developer who is very passionate about this field and I want to reach the highest place in it. What I like most is that I can build and see the results of my work immediately. I want to develop every day and reach a great academic position and strive to achieve that, allah willing.

SKILLS

HTML

JavaScript

Git

CSS

React Js

Github

PERSONAL PROJECTS

- I've completed over 20 projects in Front End Development, including using React as a front-end framework. Skilled in HTML, CSS, JavaScript, and React, I focus on creating visually appealing and user-friendly websites and apps. My goal is to make digital experiences that are both attractive and intuitive like this.

My Portfolio

- Welcome to my portfolio! It's a collection of websites I've built using HTML, CSS, JavaScript, and React. Each project is designed to be visually appealing and user-friendly, showcasing my skills in front-end development. Feel free to take a look around and see what I've created.

- Write By : Html , Css , JavaScript , React Js.

Tech E-Commerce

- Welcome to Tech E-Commerce, I built a user-friendly online store for tech products. With a diverse product range, competitive prices, and seamless navigation, I aimed to provide customers with an exceptional shopping experience
- Explore Tech E-Commerce Website > <https://markety-site.web.app/>
- Write By : Html , Css , JavaScript , React Js.

Online Restaurant

- I built this website to help you discover the Egyptian taste and have a unique and smooth experience. I've created a menu full of authentic Egyptian dishes, from delicious kebabs to fluffy falafel and sweet desserts. Each dish highlights rich Egyptian flavours, so you can enjoy a piece of tradition at home.
